

Arla Foods choose TRANSLYFT lifting tables

Translyft Ergo A/S has just manufactured and delivered 10 units TL 1000 sp lifting tables to Arla Foods export terminal in Vejle, Denmark.

The lifting tables are equipped with timer control level adjustment for faster and easier working process during depalletizing.

The adjustable timer can be adjusted according to the different type and dimensions of the goods.

The lifting tables are based on our standard type TL 1000 but shortened 100 mm.

Therefore this modified TL 1000 with dimensions 1200 x 800 mm is now available.

We wish all our customers a merry christmas and a happy new year
